PROFESSIONAL SUMMARY

Backend Engineer with 5+ years of experience designing and building cloud-native distributed systems using Node.js, TypeScript, AWS, PostgreSQL, Kafka and Infrastructure as Code. Currently contributing to Toyota Motor North America's Unified ETA platform, delivering scalable and reliable solutions for critical vehicle logistics operations. Proven track record of improving system reliability, data integrity, and deployment automation, recognized through multiple promotions, Outstanding performance ratings, Platinum Club membership (top 1% talent), and technical excellence awards.

Passionate technologist with hands-on experience spanning software engineering, computer hardware, networking, self-hosted infrastructure, AI systems and emerging technologies.

TECHNICAL SKILLS

- **Backend Development:** Node.js, TypeScript, JavaScript, NestJS, REST APIs, Microservices.
- **Cloud & Infrastructure:** AWS Lambda, AWS SQS, Amazon ECS, AWS EventBridge, API Gateway, RDS Aurora PostgreSQL, Terraform, Serverless Framework.
- **Data & Messaging:** PostgreSQL, MySQL, Kafka, Event-Driven Architecture.
- **DevOps & Operations:** GitHub Actions, Jenkins, JFrog Artifactory, XL Release, Docker, CI/CD Pipelines.
- **Monitoring & Reliability:** Datadog APM, Production Monitoring, Performance Optimization.
- **Engineering Practices:** Distributed Systems, Agile Development, System Design, Cloud-Native Applications.
- **Certifications:** Infosys Certified NodeJS Professional, AWS Cloud Professional, Open Chain Practitioner, AI Builder, Agile & DevOps Training.

PROFESSIONAL EXPERIENCE

Digital Specialist Engineer II
Infosys Ltd

April 2025 – Present
Hyderabad, India

- Lead an offshore team of 8 engineers, driving feature delivery, technical direction, design reviews, and collaboration across business and technology stakeholders.
- Architected and delivered multiple platform initiatives including end-of-life data management strategies, optimizing storage utilization through automated data retention, archival, and low-cost storage tiering solutions.
- Recognized through Commendable (2023) and Outstanding ratings (2024, 2025); selected for Platinum Club 2025-26 and 2026-27, representing Infosys' top 1% talent.

Digital Specialist Engineer I
Infosys Ltd

January 2023 – March 2025
Hyderabad, India

- Designed scalable event-driven integrations across AWS accounts, including cross-account S3 event notification pipelines and large-scale compressed data ingestion frameworks, overcoming AWS Lambda memory, storage, and processing limitations.
- Improved ETA accuracy, platform reliability, event-processing accuracy, and data integrity through backend architecture enhancements, PostgreSQL transaction management, and cloud infrastructure initiatives.

Digital Specialist Engineer
Infosys Ltd

October 2021 – December 2022
Hyderabad, India

- Contributed to the development and maintenance of enterprise-scale distributed systems for Toyota Motor North America using Node.js, TypeScript, PostgreSQL, AWS and CI/CD tooling.
- Supported cloud modernization, deployment automation, and backend service development across multiple application environments.

AWARDS & RECOGNITION

Infosys Stock Award (ESOP)

Infosys Ltd

Awarded employee stock ownership recognition for sustained contribution and impact.

February 2026

Hyderabad, India

Certificate of Appreciation

Infosys Ltd & Toyota Motor North America

Recognized by Infosys and Toyota Senior Leadership for significant contributions to the Unified ETA platform.

November 2025

Hyderabad, India

RISE Insta. Award

Infosys Ltd

Awarded for technical excellence and contributions to Toyota Motor North America programs.

November 2023, 2024

Hyderabad, India

Merit Scholarship

State Government of Andhra Pradesh, India

Ranked 4998 in AP State EAMCET 2017 (Top 1% Open Category – no Reservation) and received full academic financial assistance (Scholarship) throughout undergraduate studies.

July 2017 – June 2021

Visakhapatnam, India

PUBLICATIONS

➤ **Santoshi G. (Asst Prof.), Srinivas Y. (Prof), & Sri Harsha M. (2022).** *Implementation of Automatic Detection of Text from Complex Images and Converting to Semantic Speech*. Lecture Notes in Networks and Systems, (Vol. 341), pp. 731-738. Springer Nature, Singapore. https://doi.org/10.1007/978-981-16-7118-0_62

- Co-authored and presented the research at ICRTC-2021; subsequently published in Springer Lecture Notes in Networks and Systems (2022).

TECHNICAL INTERESTS & INDEPENDENT ENGINEERING PROJECTS

- Operate locally hosted AI models, including 32B-parameter LLMs with 64K-context windows using open-source inference frameworks for experimentation and personal productivity.
- Build and maintain a high-performance workstation featuring AMD Ryzen 9800X3D, Nvidia RTX 5090 with 32 GB VRAM and 64 GB DDR5 memory for gaming, software development and local AI workloads.
- Design and maintain a NAS-style home infrastructure supporting centralized storage, backups and media streaming across devices using SMB-based networking.
- Built a custom ESP32-powered HyperHDR/WLED ambient lighting system synchronized with display output for immersive gaming and multimedia experiences.
- Strong hands-on knowledge of computer hardware, operating systems, networking, storage systems, self-hosting and performance optimization.

EDUCATION

ANITS Engineering College – Andhra University

Bachelor of Technology – BTech, Computer Science

Cumulative GPA: 8.43/10 • First Class with Distinction

July 2017 – June 2021

Visakhapatnam, India

SASI Junior College

Higher Secondary Education – Intermediate, M.P.C

Marks: 967/1000 • Equivalent GPA: 4.0/4.0

June 2015 – March 2017

Velivennu, India
